

**LUB-GWMA Committee Meeting**

**10/22/2019**

**9:00am to 12:00pm**

**Hermiston Agricultural Research & Extension Center**

**2121 South 1<sup>st</sup> St, Hermiston, OR**

**Agenda:**

**9:00am-** Call to order, review & approve last meeting minutes

**9:15am- *Presentation by United States Geological Survey:*** a proposed USGS regional groundwater model to improve understanding of the groundwater-flow system underlying the Umatilla Basin, and its connection to surface-water resources; as the only effective tool that can be used for predictive purposes to evaluate the outcome of various water-management scenarios. Understanding the complexities of three-dimensional groundwater flow is also a necessary first step to evaluating the transport and fate of nitrate in the groundwater system underlying the LUB-GWMA for the purposes of delineating the GWMA into smaller 'management units'.

**10:15am-** Discuss opportunities for funding of the USGS regional groundwater model

**11:15am- The InterACTWEL team will give updates on the InterACTWEL tool development and next steps.** Please stick around after the LUB-GWMA meeting for lunch and a mini-workshop regarding InterACTWEL. You will have the opportunity to experiment with the latest version of InterACTWEL tool, and provide your feedback. We will also discuss next steps, future scenario development, and address any concerns you may have. For more information regarding InterACTWEL, please visit: <https://interactwel.oregonstate.edu/> . Also, feel free to contact Jenna Tilt: [Jenna.Tilt@oregonstate.edu](mailto:Jenna.Tilt@oregonstate.edu) with any questions or concerns about the project or the workshop. Please also send Jenna any contacts that you think should attend this workshop.

**12:00pm-** Adjourn for catered lunch; followed by InterActWel workshop
